OCAI GO: pathway and schedule

Condensed demo copy, prepared 2026-10-01. A listed date does not prove that a session occurred.

Fall 2026, Round One

The course schedule marks Session 1 confirmed and the remaining dates and times tentative. Registration links exist for Sessions 2 through 5, but the schedule has not been updated to mark those sessions confirmed.

Offering	Date	Pacific time	Focus
Session 1	2026-09-17	09:00-09:55	From a Prompt to a Reusable AI Teammate
Session 2	2026-10-06	13:00-13:55	Projects and Notebooks
Session 3	2026-10-23	09:00-09:55	Documents, Data Displays and Decks
Session 4	2026-11-05	14:30-15:25	Teach AI a Repeatable Move: Build a Skill
Session 5	2026-11-17	11:00-11:55	Connect AI to Your Real Work
Workflow Studio 1	2026-12-04	10:00-10:55	Combine Context, Procedure, and a Source

What follows what

• Session 1 builds reusable roles and instructions.

• Session 2 uses saved context for a continuing body of work and for understanding a source collection.

• Session 3 turns context into an editable deliverable.

• Session 4 saves a repeatable procedure.

• Session 5 considers a useful, permitted connection to information or tools.

• Workflow Studio 1 combines at least two Round One capabilities in real work.

Session 1 is recommended before Sessions 2 and 3. Session 2 is recommended before Session 4 and helpful before Session 5. Studio participants benefit from two earlier sessions. These are preparation recommendations, not access restrictions.

Winter 2027, Round Two

Dates and times have not been set.

Offering	Intended focus
Session 6	Evidence-checked research
Session 7	A small tool for a bounded internal need
Session 8	A scheduled workflow with monitoring
Session 9	An agent with limits and human checkpoints
Workflow Studio 2	A documented workflow change

Demo Day, What I Built and What Broke, is a recurring opportunity to share experience. It has no fixed date in this pack.

What to check before using this schedule

Confirm tentative bookings, registration details, and live-session access. Treat the dates in the course schedule as more specific than a general term plan. Do not fill missing times or declare future bookings confirmed.
